EXPERIENCE

University of Delaware

Newark, DE

Resident Assistant

Aug 2020 – Present

- Managed 30 first-year students in on-campus housing, resolving conflicts and helping to answer questions
- Assisted with managing building administration: room changes, key issues, and maintenance reports
- Interviewed and mentored new hires and incoming RAs on job policies and community success
- Worked closely with other team members to engage and mentor first-year students
- Received extensive leadership, community building and conflict resolution training

Phin Security

Newark, DE

Software Architect

May 2019 – Present

- Lead a team of other engineers, assign tasks and delegate work to finish and release new features
- Communicate with clients and integrate client feedback within the project
- Responsible for the primary architecture of Phin's flagship phishing awareness platform
- Architected a distributed cloud infrastructure to handle sending training emails and data for thousands of users

Arkieva

Wilmington, DE

Software Engineer Intern Team Lead

June 2019 – August 2019

- Supervised and lead a team of other interns and reported directly to the Chief Software Architect
- Managed work tickets, compiled development timelines and kept the team on schedule
- Built an Agile standup tool to speed up and streamline development standups and integrate current work tickets

Software Engineer Intern

June 2016 – August 2016, June 2017 – August 2017, June 2018 – August 2018

- Launched a new logging system globally, cutting bug resolution times by 25% with better error information
- Learned to work with a team, how to identify and resolve problems that arose and how to program in an enterprise setting
- Coordinated with senior developers to understand the unique needs of each module of the Arkieva software

ACTIVITIES

Good News Church

Hockessin, DE

Director of Technology

February 2021 – Present

- Work directly with the Lead Pastor and coordinate technology resources throughout the church
- Help volunteers utilize technology and train Sound and Media volunteers to run Sunday services
- Communicate with team leads and help resolve technology issues as well as implement new solutions

Lead Sound Engineer

January 2015 – August 2019

- Configured and prepared microphones and sound system for each Sunday service
- Worked directly with band members to coordinate and ensure equipment was available and tuned

The Association of Computing Machinery

Wilmington, DE

Chair of the Charter School of Wilmington Chapter

September 2017 – May 2019

- Chartered a student chapter through the ACM, one of only three other high school chapters
- Lead chapter towards growth, recruiting over twenty new members
- Taught multiple lectures to instruct members and other students on topics such as web development and networking
